

HR COLLEGE OF COMMERCE AND ECONOMICS
CHURCHGATE
ACADEMIC YEAR-2020-21

CRITERION VI

6.5.1

Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

Practice 1- IQAC has institutionalized the concept of ‘constant innovation’. The college believes in the power of innovation which we believe, promotes holistic development and motivates the students to constantly challenge their boundaries of knowledge. HR College first flirted with the online systems in the field of admissions even before the pandemic, but Covid 19 compelled both teachers and students to go digital. In order to adapt to the 'new normal' HR College initiated several training programmes for the administrative and teaching staff focussed on upgrading digital skills through the use of zoom, Google meet, and other such platforms. Conduct and assessment of exams project submissions has been online ever since. Further, all our student clubs conducted several programmes, festivals and webinar online throughout the year. All the administrative staff received training on how to generate reports, conduct verification, provide help with online admissions etc.

Practice 2- IQAC has significantly contributed towards the development of research-oriented culture in college. With that aim in mind, various programmes including seminars, workshops, students’ exchange programmes, certificate programmes, soft skill training workshops for quality enhancement in research and education, have been regularly organized. The college has an Honours Programme which is research oriented. The Research and Advisory Committee (RAC) was constituted on December 8, 2020. The role and responsibility of RAC is to periodically review and guide research scholars to develop the study design and methodology of research, assisting the progress of the research work of the research scholar. It also offers opportunities for research at the international level.
