Student-Centric Learning

A host of instruction methods are deployed to make teaching-learning holistic and effective.

H.R. College believes in the policy stated by Phil Collins - “In learning you will teach and in teaching you will learn”, and hence the instructional paradigm has shifted from a teacher-centered model to a learner-centered approach shown below. The college has clearly perceived that student-centered methods have proved to be superior to the traditional teacher-centred approaches. The learner-centric approach facilitates critical thinking and creative problem-solving skills among students.

The **student-centric** model leads to student empowerment. The students on their part assume more responsibility of learning. Active learning is achieved by the introduction of interactive methods such as project work, class assignments, group work, and working in pairs, role play, brainstorming and use of case studies. The student-centric model adopts various strategies that help students acquire life skills, knowledge management skills and lifelong learning.

Some of these strategies are:

- Introduction of **Certificate Courses** like Advanced Excel, Tally, and Social Media Marketing; Sound and Video editing; Power BI and Certificate Course on GST; besides Summer Schools and Corporate Seminars which cover a wide range of dynamic courses reflecting emerging trends.
- Organizing **Distinguished Lecture Series** where professionals from leading organizations deliver lectures in the college and educate students on the dynamics of the real world i.e. Seminar on Big Data, Business Intelligence & Analytics; Panel Discussion on Goods and Services Tax; and Seminar on Budget Analysis.
- Creating Partnerships with industry, NGOs and other stakeholders to bring communities to the classrooms.
- Instituting state-of-the-art infrastructure and modern teaching learning methodology to make knowledge acquisition effective.
- Encouraging students to undertake internships to acquire a hands-on learning experience.
- Training students in various foreign languages such as German, Spanish, South Korean, Japanese to name a few, along with regional languages.
- Training faculty in developing student-centered teaching learning techniques. Several training programmes have been organized like Research Methodology & Data Analysis through SPSS; BFSI Industry: Recent Trends & Future Outlook; Research Ethics & Academic Writing; Citation Metrics, etc.

INTENSIVE AND REMEDIAL TEACHING

Intensive Coaching

At H.R. College we believe that diligence, seasoned with the right amount of smartness, can ensure brilliant results at the examinations. Therefore Intensive Coaching Sessions are organised keeping the following objectives in mind.

- To help students to not only study hard but also to study smart
- To help students adopt a more productive and effective approach to the learning process.
- To support students with additional learning material and library books
- To generate confidence among students and enable them to believe in themselves

Students in the intensive coaching batches are given the benefit of internal as well as external faculty to facilitate comprehensive grasp of the subject. The sessions have examination-oriented approach, topics are discussed and the main points are summarised at the end of the discussion. It is impressed upon the students that the technique of writing answers in the prescribed time limit is what sets apart the toppers from the rest. Hence full practice is given in solving test papers which are then evaluated by internal and external examiners.

Remedial Teaching

The HR College also conducts special classes for students with latent potential. Topics which students find difficult are taught again and even the slightest doubt is cleared with great patience.

Special Cell

"A Platform for addressing the special needs of the students," is how the Special Cell of HR College defines itself and its existence.

The objective of the Special Cell is to provide students a support in overcoming dyslexic, learning and other learning deficiencies. The Cell creates a platform for these young adults to prove their mettle and creates a marked difference to their lives.

ENACTUS HRC

Enactus H.R. College is a student-run social entrepreneurship organization. It is one of the 1600+ chapters of Enactus worldwide. Enactus HRC is currently working on two of its flagship projects: Project Inaayat & Project Aajeevika.

Project Inaayat

Project Inaayat is India's first chapter under the Days for Girls international chapter that aims to improve the menstrual hygiene of rural women by providing them with our kits which comprise two shields (which act as sanitary napkins), eight absorbent liners, one menstrual chart, a pictorial guidance chart, and 2 soaps. Besides selling these kits, Menstrual Hygiene Management sessions are conducted and for the same, collaborations with various reputed organizations and schools. The association with Rotaract Club of Bombay Hanging Gardens has resulted in successfully conducting MHM Sessions for over 500 underprivileged women in remote villages along with the distribution of the kits. Since its inception, 3024 kits have been sold, with a total of 30,000 people being impacted under Project Inaayat.

Project Aajeevika

Aajeevika, in Hindi, refers to 'livelihood'. Through Project Aajeevika, employment is provided to the rural women of Maharashtra, thus increasing their family income and henceforth, enhancing their standard of living. Rural women are empowered to capitalize on their stitching skills. The women possessing stitching skills are identified from rural communities. The women employed are then vocationally trained in being seamstresses. This gives them a skill with which they can earn a livelihood and become independent. Unlike any other competitors, the bags are customizable with zips, chains, and other accessories along with an array of designs at the choice of our consumers. To date, 2,000 bags have been sold under Project Aajeevika

Project Jalvrudhhi

Project Jalvrudhhi is dedicated to revolutionize the manner in which water has been transported and utilized by the houses of rural India since the olden times.

As a solution to the problem of water transportation, the villagers were provided with the water wheel which is a 45 litre rolling drum manufactured by Wello. It is durable, easy to use and efficient to use. Wockhardt Foundation's 'Shuddhu purification pills' were also distributed to tackle the problem of water purification.

Recently the project was expanded to Shegaon, located at the frontier of Maharashtra. To be able to provide the water wheel at a feasible price, a cross subsidy model was devised by engaging another set of rural women in a revenue-generating process. The profits of which are then used to subsidise the packages.

Accessibility to water in rural areas has improved with the introduction of the water wheel
