I am very happy to see that HR College is doing path-breaking work in bringing professionals from their field of expertise to guide and mentor students to be industry-ready. These sessions curated by the college provide the much-needed direction that students need, once they finish college. Students benefit hugely from them and gather extensive knowledge of industry requirements and standards. The college also has very important international connections providing fillip to student and faculty exchanges and research collaborations. I am very impressed with the social initiatives that the college undertakes. Students have been at the forefront of community work through these initiatives and have developed a deep understanding of our vast and complex society, contributed to a collective sense of well-being; preparing themselves to become sensitive, empathic leaders of India. The college is also going through an infrastructural overhaul which will transform the physical space in which teaching-learning takes place. The year 2022-23 was a harbinger of new beginnings. We left the horrors of the pandemic behind and began the year with a sense of potential that echoed throughout campus. We at HR College firmly believe that our duty of care towards our students, teachers, non-teaching staff and associates does not end in just providing infrastructure and classrooms to teach and learn.

We believe in providing an entire ecosystem of support that will help shape character and prove to be transformational. We want our students to be able to thrive in this ecosystem and make connections that will help them to define themselves at a personal, academic and professional and mould them as a global citizen. HR College shall be the place where new opportunities for life will be found and new intersections continually forged.

We are currently standing at the crossroads as the New Education Policy is being rolled out across India. We will take up the challenge and implement it to ensure that quality education that foregrounds inclusivity, creativity, innovation, skills and critical thinking remains a top priority. This academic year we have once again excelled in academics, co-curricular and extra-curricular activities. Our teachers have shown great tenacity and commitment in research and teaching, students have performed very well in their exams. Both the teaching and student community have undertaken numerous projects that address the contemporary social issues and seek ways to resolve those that require our immediate intervention. The students have engaged wholeheartedly and participated in outreach programmes that not only enhanced their knowledge of the given field but also provided them with a deeper insight into the ways of the world. Industry placements have seen some of our brightest and best receive internships and job offers from reputed companies. Many experts from the world of finance, technology, business management and administration, start-ups, and social networks, graced us with their inspiring presence and spoke to our students and teachers motivating them and encouraging them to persevere. Our social engagements with NGO's were an all-time high. Numerous projects and programmes were undertaken by our students with the guidance of the Prof. in-charges to impact lives and contribute to our immediate community. Programmes on gender sensitivity and environmental awareness that we organised have had a very positive impact on young minds. We were extremely proud to host the very successful international multidisciplinary conference titled: India@100: Vision 40 Trillion-Dollar Economy which witnessed large participation from India and abroad.

At HR our motto is accountability, creativity and compassion. We want to nurture citizens of tomorrow who will work with passion and work for transformation. We are confident that we shall remain committed to our cause of providing all-round quality education. Our teachers are at the forefront of this battle and their dedication and determination to make sure our students get the best, shall be our guiding light. Our administrative staff have provided us with great support and we are certainly grateful to all of them for that. Our pro-active management has stood by us and inspired us to keep improving and innovating. But above all, it is our students who with their unbounded enthusiasm, energy, creativity and curiosity bring us joy and pride.

The college has developed strong linkages with the corporate sector in the field of Finance, Banking, Insurance, Manufacturing, Tourism, Media, Retailing, Marketing, and various other industries. INTER COLLEGIATE ACHIEVEMENTS

Intercollegiate events are a high point for our institution. There are numerous networking and competitive events that are organized by several student's associations and clubs of the college. Departments also periodically hold intercollegiate programs for teachers and as well as students. Intercollegiate events are very important in building multiple skills and play an integral role in the collegiate experience. It not only provides entertainment and knowledge but also helps students develop organizing skills that include but are not limited to communication, marketing, public relations, networking, leadership, mentoring, conflict management and community building.

H.R. College organizes these events to ensure that a variety of student interests are met. We believe any type of extracurricular activity in college that involves an intercollegiate aspect also helps our students to engage with their peers from diverse backgrounds and develop empathy. Moreover, working outside of the classroom with diverse groups of individuals allows for students to gain more self-confidence, autonomy, and appreciation for others' differences and similarities.

Our students also enthusiastically participate in intercollegiate events organized by other colleges both in the state as well as outside of Maharashtra. This gives them great exposure to other institutions and makes them competitive. Participating in intercollegiate events outside the college provides them with an opportunity to build networks and new friendships. Overall benefits of intercollegiate participation and organization are many. Extracurricular activities provide a place for students to come together, discuss pertinent ideas and issues, and accomplish common goals. Within this community, where students feel comfortable with one another, learning and development are enhanced and student retention is positively impacted.

H.R. College puts a lot of emphasis on all-round development of our students. That is why we continuously encourage and energize our students to play sports and participate in sporting events at the intercollegiate, university, state, national and international levels. Sports is an important element in our holistic approach to education. Playing sports not only builds character but also secures a student's physical, social, and emotional health. Our students consistently perform exceedingly well in events they take part in, winning accolades for themselves and strengthening the reputation of the institution and spreading it far and wide.

The Competitive Examination Guidance cell had recently collaborated with Monetrè, National Service Scheme of H.R. College, Special cell and the Young Leaders club and conducted a social initiative which aimed at feeding strays all around the city of Mumbai.

In this charitable endeavour, our volunteers provided food and a helping hand to the strays. The initiative was extremely successful as we managed to get 40 to 45 people to enrol for it. Out of these 45, 5 participants were the core members of the Competitive Examination Guidance Cell. Every participant fed 5 stray animals of their choice which means, almost 250 plus animals were fed only because of the initiative! To express our gratitude towards those who helped us make this initiative a success, the Competitive Examination Guidance Cell also provided every volunteer with an e-certificate and wished everyone well.

October 31, 2022

Through education, fundraising, advocacy and service, Girl Up Club members develop the leadership skills necessary to make a positive impact in the lives of girls everywhere. Before we can achieve gender justice, we have to learn about the issues and how they intersect.

GIRL UP SPORTS BOOTCAMP: MEDIA REPRESENTATION

November 5, 2022

Attendees: 70

GirlUp HRC was part of an international sports bootcamp where girls from countries including US, UK, Australia, Peru among others interacted in order to gain insight on the gender gap in media representation with reference to sports.

How can we change media representation of girls and women athletes?

Overview

- + Identifying an issue
- + SMART goals
- + Root causes
- + Developing a solution

Do the words and pictures go together? Words often undermine the image. For example, "strong is sexy" or "the beauty of power."

Despite female participation in sporting events and athletic achievements of women and young girls, media coverage continues to represent girl and women athletes through the restrictive lens of gender stereotypes. By continuing to feature and centre focus on male athletes, and by presenting stereotypes of traditional femininity in their limited coverage of women athletes, media representation creates barriers to achieving gender equality.

The bootcamp discussed ways in which this gender gap can be closed and the ways in which equity in media representation of women athletes can be achieved.

 2. I love nature and work on saving it.
 3. I like to use my talent and energy to make cities better places to live. I founded Mumbai Sustainability Centre with that objective in mind.
 4. I graduated in Economics from HSNB Board - H D National College in 1997

He extensively spoke about his work with the Safai Bank which collects plastic wrappers and aluminium foil strips which is then recycled to generate power and utilised in road construction. The event concluded with a vote of thanks.

PLASTIC WASTE MANAGEMENT

September 2022 - October 31, 2022

He mentioned in his talk about "donating" the plastic waste to the Safai Bank, which utilizes plastic wrappers for generating energy and road-building. The idea was to spread awareness and remind people about how much plastic waste we generate, unmindful or unconsciously, and that it is hazardous to the environment and wildlife. The club spread awareness about plastic waste and promoted the project in the junior college classrooms as well as via Instagram, readied 3 bins labelled with 'plastic waste collection' in the college premises, and the in-charge teacher and some other students deposited the plastic wrappers in the bin. ANNUAL PRIZE DISTRIBUTION

March 25, 2023

Venue: Rama Watamull Auditorium

JUNIOR COLLEGE

The Annual Prize Distribution for Junior College was held at Rama & Sundri Watumull Auditorium. Shri. Sandip Pramod Sangave & Mr Dirven Hazari were the Chief Guest & Guest of Honour respectively.

The Principal, Chief Guest, Guest of Honour, teachers, the student and parent community, and other guests were warmly welcomed by the comperes. The prize-winning students' parents as well as other family members had been invited to witness the proud moments. The event commenced with a serene classical performance by Deeya Nagdev and Mahek Ramtara. The performance was followed by a video highlighting the multifarious activities and extracurriculars of the junior college. A dance performance based on the theme "Dancing through the Decades" by the students enthralled the audience.

The honourable Principal Dr. Pooja Ramchandani inspired the students and emphasized that the students in this college had a bright future. She praised the students for their fine balance between academics and extracurricular activities.

The Chief Guest, Shri. Sandip Pramod Sangave gave a thrilling talk about our college and students. He was impressed by the zeal of all the students and their leadership abilities shown in club activities. Mr. Dirven Hazari, the Guest of Honour encouraged the audience and spoke to them about diverse matters including the power of social media and how we must fearlessly chase our dreams.

The most awaited moments started with announcements of various awards like the All-Rounder, Principal's Special Prize, General Leadership, Inter-Collegiate Wins, Excellence, Promising Young Leader, Best Organiser, Outstanding Contribution, and Certificate of Merit. The Chief Guest Shri. Sandip Pramod Sangave, Guest of Honour Mr. Dirven Hazari, Principal Dr. Mrs. Pooja Ramchandani, junior college Vice Principal Ms. Laju Sharma, and junior college supervisor Mrs. Bhavana Shah handed over the awards to all the winners. Happy students collected their awards on stage while the proud parents cheered.

The stage also saw the launch of "Anthology of Poems, Short Stories, and Articles, Volume 2, Academic Year 2021-22, A Journey of Myriad Genres Begins" and the Principal and esteemed guests along with all the young student authors and bards unveiled the book along. The anthology, containing the poems, short stories, and articles penned by the students of this college is published annually by the college itself, providing a chance to the students to showcase their written works.

The organising committee for the prize distribution was then felicitated for their hard work and efforts both behind the scenes and on stage in making the event a success. Expressing gratitude towards everyone involved, the programme concluded with a formal vote of thanks. The event concluded with everyone singing the National Anthem with pride.
